

A Tradition of Perfection

As one of the premier pool builders in the Northeast, Rizzo Construction Pool Company enjoys a rich tradition of excellence in custom pool design and construction. New England's challenging terrains and forested knolls lend themselves to the company's natural designs, many of which include spectacular spas and extravagant water features.

In addition to natural pools, Rizzo Construction specializes in contemporary designs and indoor aquatic retreats. Indoor pools require special considerations, and the company uses state-of-the-art technologies to create energy-efficient, year-round pool environments that convert moisture and heat in the air into heated water for the pool.

"Each pool has its own personality," says company president Albert Rizzo. "Indoor pools, with their contemporary water features and lighter colors, stand in sharp contrast to what we typically do outside."

Staying true to its motto, *Perfection Is Our Tradition*, Rizzo Construction continues to uphold the highest standards of residential and commercial pool construction.

The company works closely with each architect and homeowner to select building materials that complement a home's design and landscape. This close attention to detail has not gone unrecognized, as the company has won numerous regional, national and international awards for its design and engineering feats. In 2007, *Hartford Magazine* named the company the Best Pool and Spa Company in Connecticut for the third consecutive year. "Our company is the only pool builder in Connecticut with four employees who have earned titles as Certified Building Professionals

by the Association of Pool & Spa Professionals," says Rizzo.

Albert Rizzo is a founding member of APSP's Builder's Council and is chairman of its education committee. He also served as the first president of the Connecticut Spa & Pool Association in 1967, and again in 2005 and 2006. In 2007, Mr. Rizzo was awarded the first-ever APSP Certified Building Professional of the Year and received a lifetime achievement award from a leading manufacturer. Rizzo Construction Pool Company is a proud member of the Master Pools Guild. ❖

Service Area

Connecticut, Massachusetts,
Rhode Island and New York

A profusion of wildflowers and a babbling-brook waterfall create a backwoods setting for this pool located in the Connecticut marshlands. Natural pebble stones give the bottom of the pool its pond-like appearance.

Uniting the dramatic design of a resort with water features sure to raise excitement, this pool with elevated spa has everything, from flames to laminar jets to water pouring from different heights. The sights, sounds and movement bring one word to mind — spectacular.

Tucked away in the countryside, this lap pool offers an ideal reading spot as well as an opportunity for aquatic fitness. Light hues from the pool's coping complement the lush landscape, creating peaceful moments for the daydreamer in us all.
